* For the materials selected as “COLLECTION”, True design commits to provide supporting marketing tools, including fabric swatches, in quantities and methods compatible with each client's commercial needs.

* Per i materiali selezionati a “COLLEZIONE”, True design si impegna a fornire gli strumenti di marketing a supporto, inclusi i campioni tessuto, in quantità e modalità compatibili con le esigenze commerciali di ciascun cliente.

* Pour les matériaux sélectionnés dans la “COLLECTION”, True design s'engage à fournir les outils de marketing de soutien, y compris les échantillons de revêtements, en quantités et de manières compatibles avec les besoins commerciaux de chaque client.

OUTDOOR USE AND MAINTENANCE

USO E MANUTENZIONE PER L'OUTDOOR - UTILISATION ET MAINTENANCE POUR L'EXTÉRIUR

STEEL METALLO - MÉTAL

Steel is used in the manufacture of metal products. This material galvanised and powder-coated, is ideal for outdoor use. Regarding products intended for seaside locations we recommend cleaning on a quarterly basis, with a cloth using water or mild detergents. During the winter period we recommend storing the furniture in closed, dry rooms in order to prevent condensation. In fact, although our products are suitable for outdoor use, during colder months the products should be stored in a closed, dry place in order to prevent moisture and seasonal frosts from affecting the finish.

Nella realizzazione dei prodotti metallici viene impiegato l'acciaio, il quale in seguito al processo di zincatura e di verniciatura a polveri, risulta ideale per l'utilizzo outdoor. Durante il periodo invernale consigliamo di conservare gli arredi in luoghi chiusi ed asciutti per evitare la formazione di condensa. Per i prodotti destinati a località marittime consigliamo con cadenza trimestrale una pulizia con un panno utilizzando acqua o detergenti non aggressivi. Nonostante i nostri prodotti siano adatti all'ambiente esterno, durante il periodo invernale è consigliato il ricovero dei prodotti in un luogo chiuso ed asciutto, in modo da evitare che l'umidità unita alle gelate stagionali possa in qualche modo intaccare le finiture.

L'acier est la matière première utilisée dans la fabrication de ces produits métalliques qui, après un processus de galvanisation et un revêtement de finition par poudre, sont idéaux pour une utilisation en extérieur. Pour les produits destinés à être utilisés en bord de mer, nous recommandons un nettoyage trimestriel avec un chiffon utilisant de l'eau ou des détergents doux. Bien que nos produits soient adaptés à un usage extérieur, nous recommandons de les stocker dans un endroit fermé et sec pendant l'hiver; ceci afin d'éviter que l'humidité combinée aux gelées saisonnières n'affecte d'une manière ou d'une autre les finitions.

STONE PIETRA - PIERRE

The stone tops are made of Marble or Santa Margherita and they are ideal for the outdoor environment. Use a soft cloth with just water for daily cleaning. Avoid the use of aggressive abrasive sponges or steel wool pads. The furnishings made of stone such as marble and Santa Margherita, during the first week of use will undergo a slight dulling due to contact with external elements. This is a natural phenomenon which does not affect the quality of the material. When the furniture is placed in seaside locations or swimming pools, cleaning with fresh water on a quarterly basis is recommended in order to avoid water corrosion due to salt build-up or chlorosis. Although our products are suitable for outdoor use, during colder months the products should be stored in a closed, dry place in order to prevent moisture and seasonal frosts from affecting the finish.

Materiale composito autoportante adatto all'ambiente Outdoor. Utilizzare un panno morbido con sola acqua per la pulizia quotidiana. In caso di necessità utilizzare detergenti non aggressivi. Evitare l'impiego di spugne abrasive o pagliette in acciaio. Nel caso di collocamento degli arredi in località marittime o piscine, si consiglia una pulizia trimestrale utilizzando acqua dolce per evitare principi di corrosione dovuti ad accumuli salini o clorosi. Nonostante i nostri prodotti siano adatti all'ambiente esterno, durante il periodo invernale è consigliato il ricovero dei prodotti in un luogo chiuso ed asciutto, in modo da evitare che l'umidità unita alle gelate stagionali possa in qualche modo intaccare le finiture.

Les dessus en pierre sont en marbre ou en Santa Margherita, idéaux pour une utilisation en extérieur. Utilisez un chiffon doux avec de l'eau uniquement pour le nettoyage quotidien. Évitez d'utiliser des détergents agressifs, des éponges abrasives ou des tampons de laine d'acier. Les meubles en pierre tels que le marbre et la Santa Margherita, pendant la première semaine, subissent un léger ternissement dû au contact avec les éléments extérieurs. Il s'agit d'un phénomène naturel, qui n'affecte pas la qualité du matériau. Si le meuble est placé dans des stations balnéaires ou des piscines, nous recommandons un nettoyage trimestriel à l'eau douce pour éviter la corrosion due à l'accumulation de sel ou à la chlorose. Bien que nos produits conviennent à une utilisation en extérieur, il est recommandé, pendant la période hivernale, de stocker les produits dans un endroit fermé et sec, afin d'éviter que l'humidité combinée aux gelées saisonnières n'affecte d'une manière ou d'une autre la finition.

FABRICS TESSUTI - TISSU

The fabrics used are naturally resistant to climatic elements, UV-resistant and anti-microbial. After heavy rainfall it is recommended to remove the cushions for quick drying and in order to prevent condensation. When the furniture is placed in seaside locations or swimming pools, cleaning with fresh water on a quarterly basis is recommended in order to avoid water corrosion due to salt build-up or chlorosis. Although our products are suitable for outdoor use, during colder months the products should be stored in a closed, dry place in order to prevent moisture and seasonal frosts from affecting the finish.

I tessuti impiegati sono naturalmente resistenti agli elementi climatici, resistenti ai raggi UV ed anti-microbici. A seguito di forti precipitazioni è consigliato rimuovere i cuscini per un'asciugatura rapida e prevenire la formazione di condensa. Nel caso di collocamento degli arredi in località marittime o piscine, si consiglia una pulizia trimestrale utilizzando acqua dolce per evitare principi di corrosione dovuti ad accumuli salini o clorosi. Nonostante i nostri prodotti siano adatti all'ambiente esterno, durante il periodo invernale è consigliato il ricovero dei prodotti in un luogo chiuso ed asciutto, in modo da evitare che l'umidità unita alle gelate stagionali possa in qualche modo intaccare le finiture.

Les tissus utilisés sont naturellement résistants aux éléments climatiques, résistants aux UV et antimicrobiens. Après de fortes pluies, il est toutefois conseillé de retirer les coussins pour un séchage rapide et pour éviter la formation de condensation. Si le mobilier est placé dans des stations balnéaires ou des piscines, nous recommandons un nettoyage trimestriel à l'eau douce pour éviter la corrosion due à l'accumulation de sel ou de chlore. Bien que nos produits soient adaptés à une utilisation en extérieur, il est recommandé de les stocker dans un endroit fermé et sec pendant la période hivernale, afin d'éviter que l'humidité combinée aux gelées saisonnières n'affecte d'une manière ou d'une autre les finitions.

HPL HPL - HPL

Self-supporting composite material suitable for outdoor environment. Use a soft cloth with water only for daily cleaning. If necessary, use non-aggressive detergents. Please avoid using abrasive sponges or steel wool pads. When the furniture is placed in seaside locations or swimming pools, cleaning with fresh water on a quarterly basis is recommended in order to avoid water corrosion due to salt build-up or chlorosis. Although our products are suitable for outdoor use, during colder months the products should be stored in a closed, dry place in order to prevent moisture and seasonal frosts from affecting the finish.
