Introduction

The Wave series is the result of a gesture, a natural movement that gives birth to sinuous and minimal forms without neglecting the functionality of the object. It consists of wall shelves, free standing modular bookcases and practical tea tables. Wave is a complement made of metal sheets, the furniture elements are perfectly suited for public and private work environments, characterized by constantly changing working methods.

La serie Wave nasce da un gesto, un movimento naturale che dà vita a forme sinuose e minimali senza mai tralasciare la funzionalità dell'oggetto. Si compone di mensole a muro, librerie modulari "free standing" e pratici tea table. Completamente realizzati in lamiera di metallo, gli elementi d'arredo si adattano perfettamente ad ambienti di lavoro pubblici e privati, caratterizzati da modalità lavorative in continuo mutamento.

Favaretto & Partners

"I was looking for a freestanding bookcase that went beyond the concept of a simple modular system. I wanted to give it a rhythm, a flow, a movement of its own, capable of standing on its own regardless of the books and objects it would hold. A bookcase that was, first and foremost, a beautiful object... its functionality was a given!"

Favaretto & Partners is an Italian design studio specializing in industrial design and product development for the contract sector. The studio combines creative research with industrial expertise, delivering solutions that integrate functionality, innovation, and production efficiency. Their work is characterized by formal clarity, ergonomic attention, and a strong focus on usability, resulting in products that are both accessible and distinctive.
